

## DIVANA MASSAGE & SPA THAI BOUTIQUE SPA

Thai boutique garden home spa in the heart of Bangkok, aiming to bring all the guests back into the origin. 'Divana' is an Indian word, meaning 'the passion for love' that can be led to the goddess of love who wants to pass on her affection to all visitors. Reflecting the name's philosophy, our natural spa treatments offered through our caring hands will gently escort our guests to their ease.

## DIVANA CLINIC NATURAL ANTI - AGING

The Anti-Aging Medicine means the science of illness prevention and the prolonging of human life cycle, using modern medicine technology in the treatment on those who wish for longevity and good health. More importantly, the key point is not only to enhance beauty and youthfulness of the exterior, but also to improve a person's behavior and selfcare to create good health, internal and external.

The popularity of Anti-Aging trend, particularly the use of natural cares to maintain the internal and external body and health, inspires Divana Clinic to develop the principle and to concoct our own way of treatments, called the "Natural Anti-Aging". The concept aims to smoothly and effectively incorporate the science of anti aging with Homeopathy and Holistic Care, with safe, modern, and reliable treatments.

## Face Cell Therapy

Youthfulness is everyone's ultimate desire. Nevertheless, for beauty to be forever maintained, the treatment and therapy with modern technology is not the sole answer. The ground principle is a profound understanding of constant self caring, of which results will evidently manifest from inside out. Divana Clinic has developed and combined alternative methods with homeopathy principle to be able to lead you to that answer. At last, even nature can't stop you.
